October 31, 2013

Dig-Out and Pavement Replacement Project Starts

for further information contact Jarrod Whelan, Assistant Engineer at 772-6564 or jwhelan@morro-bay.ca.us

Portions of streets in Morro Bay may experience traffic, bike lane, and pedestrian restrictions during the construction of the 2013 Street Rehabilitation Program. Residents may have already noticed that City Street crews have started patching damaged pavement on many of the streets noted below. Souza Construction of San Luis Obispo was awarded the contract on October 22, 2013 by the City Council. This contract will remove damaged asphalt, replace and recompact base material and repair larger areas of deteriorated pavement. Portions of Andros Street and Kings Avenue will undergo major reconstruction. Work is expected to start the week of November 11th and is scheduled to be completed in early December. Street Micro-surfacing and Chip Sealing will follow soon thereafter and additional notices will be posted prior to the start of that project.

Street	From	To
Alder	Sequoia	Elena
Andros	Sandalwood	Coral
Beachcomber	Hatteras	Sienna

Yerba Buena	Panorama	Main
Yerba Buena	Panorama	Tuscan

Though limited road closures may be required during this phase of the project, they will generally be brief. Residents of Kings and Andros Streets will experience more significant closures and will be advised of more detailed project scheduling and construction detours as soon as they are approved. Please expect some inconveniences during the course of work and be mindful of crews working in your neighborhood. Also, please do your part to observe all temporary traffic and parking restrictions to help expedite the project and provide a safe work area. Emergency vehicle response, trash pickup and mail delivery will not be impacted.
