Josh Leimer, Project Manager Leo Tidwell Excavating, (805) 238-4612

FIBER OPTICS INSTALLATION ON SOUTH BAY BOULEVARD FROM MORRO BAY TO LOS OSOS – New fiber optic cables will be installed along South Bay Boulevard, from within the Morro Bay City Limits, to Santa Ysabel Avenue in Los Osos. Work will be located mostly in the bike lane and on the road shoulder. Construction will begin June 20 and is scheduled to be completed on October 2.

No full road closures are anticipated, but partial lane closures may be necessary. If partial closures occur, for the safety of motorists and workers, flaggers will be in place. Electronic message boards will display updated information during the project. Motorists are advised to adjust their travel plans in consideration of potential delays. Please see map for the project location.

The private telecommunications company, Zayo Group from Boulder, Colorado, has contracted with Leo Tidwell Excavating Corporation for the installation of new fiber optic cables. Zayo Group provides high-speed data infrastructure throughout North America and Europe.

For more information, please contact Josh Leimer at (805) 238-4612.
